OWN THE INTERNET PACKAGES \$50,000 to \$1,000,000

We tailor a marketing plan based on your budget and particular needs. Working closely to meet your goals, we provide access to 20 billion impressions through major social networks and many of the top 500 websites.

We provide marketers dedicated full-time to promoting your site. Our team specializes in Search-engine Optimization (SEO), Pay-per click (PPC), Display Advertising, Affiliate Marketing, Article Marketing, Social Networking, Social Bookmarking, Comment posting, Directory Submission, Answer Posting, Opt-in Bulk Emailing, Press Release Marketing and more. This results in highly-targeted and often pre-qualified traffic visiting your site.

Many of our clients are attaining 100,000 to 6 Million hits per month of additional traffic.

A word of caution: Many people offer SEO services that use less-than-reputable means. You may have seen them: free-for-all link sites, sub-par free directories, second-rate article repositories, and other questionable means. This can hurt you more than help you. It can get your efforts blacklisted by search engines and directories. No matter who you choose to provide Internet marketing, please stay away from these methods and stick to respectable, high-quality methods.

As some have unwittingly gone down that road, we also offer de-listing services for sites that were banned by search engines or blacklisted on the Internet. Many packages are available to get your site back in good favor.
